MORNING:

- Four-man, three-man, and two-man round-robin brackets will be used. We will try to place as many wrestlers as possible into four-man round-robin brackets.
- Takedowns are each worth 1 point.
- After points are awarded, the clock will **not** stop and the wrestlers will be placed back into the neutral position.
- If a wrestler gains a 10 point lead on an opponent at any time during the match, it will result in a technical fall & the match will end.
- Matches will consist of one 4-minute running clock period
- In the case of a tie there will be a 30 second sudden death period in the neutral position. If tie remains, wrestlers will go to a clinch with the wrestler with the first takedown getting choice in clinch.
- If the wrestler with the advantage in the clinch scores a takedown he/she wins. If not, the other wrestler wins.

FUNDRAISING OPPORTUNITY!

Not only is this tournament a great opportunity for the wrestlers to compete in a fun tournament and focus on takedown skills, it can also be a great fundraiser for your club.

Example: You bring 10 wrestlers who each get 10 pledges of \$1 per takedown and they each get 15 takedowns during the tournament, your club will raise \$1,500. Older wrestlers can collect flat fees to support the fundraising efforts of your club. Takedown counts will be emailed to each club so kids can collect on their fundraising pledges. *(We can provide you the word file if you want to customize the pledge sheet with your club's information and logos or you can create your own that wrestlers can use to secure pledges.)*
